

EC GROW

Dimension on Fertilizer

Award Turf Fertilizer with Dimension provides season-long control of crabgrass and controls or suppresses other listed summer annual grasses and broadleaf weeds. Award Turf Fertilizer with Dimension is a **non-staining**, low-odor formula that can be applied on established lawns, golf course fairways, roughs and tee boxes.

The active ingredient in Dimension (dithiopyr) is a member of the pyridine family of chemistry. When susceptible plants absorb the chemical they swell and stop growing.

Weeds controlled include:

Barnyardgrass
Crabgrass
Oxalis

Bluegrass, Annual
Goosegrass
Pigweed

Chickweed
Knotweed
Spurge
And other listed weeds

Award Turf Fertilizer with Dimension has an application window of two to eight weeks longer than any other herbicide on the market by providing both pre and post-emergent crabgrass control.

Choose the product that is right for you. Award Turf Fertilizer with Dimension is available in these popular active ingredient loads:

- .10% Dimension (190-500 lbs./Acre)
- .15% Dimension (127-333 lbs./Acre)
- .125% Dimension (152-400 lbs./Acre)
- .19% Dimension (100-263 lbs./Acre)

Key Benefits

- Season-long Crabgrass Control
- Broad-spectrum weed/grass control (over 45 grassy and broadleaf weeds)
- Non-staining and low-odor formulation
- Wide Application Window

Always refer to the actual product label for complete instructions and Directions of Use. Dimension is a trademark of Dow AgroSciences LLS
